

## **Community Engagement Policy**

As Zeyt Inn Hotel, we are committed to supporting and working together with the local community in which we operate.

In all services we provide, we act in a way that helps preserve and promote the culture, heritage, and local economy of the destination. We believe that maintaining continuous communication with our local community contributes to the well-being of local people and their living environment.

We aim to support initiatives that develop the local economy and community, respect and preserve local culture, traditions, and ways of life.

### **To achieve our goals:**

- We encourage our guests to explore the history, culture, traditions, and local products and services offered together with our local community.
- We guide our guests on how to behave responsibly towards local people, flora, and fauna outside the facility.
- Whenever possible, we prefer local and regional products and services, as stated in our procurement policy.
- We provide employment opportunities for local people by prioritizing local residents in our recruitment processes.
- We actively participate in projects that contribute to society, with an awareness of social responsibility.
- We are committed to continuously improving and sustaining our practices within the scope of community engagement.
