

Environmental Policy

Zeyt Inn Hotel adopts an environmentally responsible management approach based on the principles of environmental protection, sustainable use of natural resources, and safeguarding human health.

With the responsibility of leaving a more livable world for future generations, we aim to use natural resources efficiently, reduce environmental impacts, and act in line with sustainable tourism principles.

Being aware of climate change, depletion of natural resources, and environmental risks, we support the use of clean and renewable energy and continue our investments in this direction.

Our Core Approach

- We develop practices that minimize waste, emissions, and environmental impacts.
- We aim to increase efficiency in energy and water consumption.
- We support recycling and reuse practices.
- We regularly evaluate our environmental impacts and implement improvement actions.
- We encourage our employees and guests to be environmentally conscious.
- We raise awareness for the protection and responsible use of water resources.

Zeyt Inn Hotel is committed to contributing to the protection of biodiversity and supporting the development of the region by acting in line with sustainable tourism principles.
